

## 3rd Millennium Classrooms SFTP File Transfer Documentation

3rd Millennium will create a user account for the institution from there the institution has full control over the automation of file transfers.

To login for the first time, use the email address registered.

After that the username is the account name which will be provided after we register the user from your campus.

The server is <https://3rdmil.files.com/> or if you need the full file path it will be provided after the creation of your account.

The password is whatever you set it to, and the port is the default port.

Here is the documentation for the platform:
